LinkedIn for Nonprofits
Your LinkedIn Page is the first place members go to learn about your organization, mission, and activations.

More than any other social media platform, members leverage LinkedIn to find community because of the trusted, professional nature of the platform.

By maintaining an active and updated Page that showcases your story, members will be able to search, learn, and refer your organization to their broader network. We put this guide together to help you get set up quickly so you can grow with LinkedIn.

Complete your Page

First, you'll need to set up your Page and fill out the “About” tab. This step is crucial, because it establishes your organization’s credibility and makes your Page more searchable on and off LinkedIn. You can edit your Page details from desktop or mobile.

1. **Fill out your description.**
   Ask yourself these key questions when writing your organization’s description:
   - **Origin Story:** Where did our idea and passion come from?
   - **Vision:** What are we solving for?
   - **Values:** What core values support our vision and decision making processes?
   - **Positioning:** Who are our advocates and where do we fit?

2. **Add your logo and cover image.**
   If you don’t have a logo or cover image, create a free one at [Canva.com](https://canva.com). Logos should be sized at 300x300, cover images at 1536x768.

3. **Input your organization’s details.**
   This includes your website, city/country, industry, and size.

4. **Consider a custom CTA button.**
   Choose from different call-to-action buttons to drive the right action from your Page visitors. The Give and Volunteer button options were created especially for nonprofits.
## Grow your followers

Follow these best practices and you’ll be on your way toward more followers, engagement and off-platform activity.

<td>Add the LinkedIn “Follow” button to your website. You may need to ask your web developer to implement the plugin, but we promise it’s easy and worth your while. Link to your Page in all of your marketing templates. Consider adding a link to your email signature, business cards, newsletters, and blogs.</td>

<td>Once a day</td>
<td>Post content daily. We recommend once per day. Post during peak times, Monday through Friday, between 9 a.m. - 5 p.m., as members are most active during the work week. React and comment on hashtag feeds. By associating your Page with relevant hashtags in your Communities panel, you can enter the feed and participate in conversations from the perspective of your organization, thus increasing your brand exposure.</td>

<td>Cross promote your Page on other social platforms to reach different audiences. “Notify Employees” of important posts. Your employee’s networks are typically 10x the size of Page followers. **Switch up the hashtags in your Communities panel.** Based on your current initiatives, consider broad, niche, and talent branding hashtags. Also consider current events-related hashtags that are relevant to your organization.

**Tap into your community.** Think of your top advocates who’d recommend your organization and ask them to post on their network with an @mention of your Page. Re-share posts on your Page with a thank you.

**Review your Page analytics.** Gain followers and grow engagement by ensuring your content is tailored to your audience. Use analytics to find out what resonates most and where there are opportunity gaps.

@mention influencers or other Pages you admire. Share why you admire or want to work with them. Try not to sound spammy; make those tagged proud to re-share your post with their broader network.

Once a quarter

**Research your peers’ content.** Navigate to the member view of your Page and check out the “Similar Pages” section on the right-hand side to see how your Page compares to similar organizations. Review their content to identify tactics that are working and whitespace that your organization can fill.

**Invite your personal connections to follow your Page.** Complete a regular analysis of Page Analytics. Understand the demographic details of page visitors and followers, review historical update engagement and more. You can use the “Invite to Follow” feature to invite your first-degree profile connections to follow your Page.
Post engaging content

Posting consistent, compelling updates on your Page is key as you acquire and retain followers. Here are our best practices for sharing the right content for your audience(s).

- **Use the Content Suggestions tool.** Here, you can discover topics and articles that are trending with your target audience.

- **Re-share your organization’s best @mentions.** Highlight the best of your brand by showcasing mentions from employees, executives, and key advocates. Find them under your Activity tab on either desktop or mobile.

- **Include custom images and videos in your posts.** Video is 5x more likely to drive member engagement than other media types. Keep them short and authentic.

- **Share PowerPoints and PDFs.** Upload visually-rich documents to help your followers dive deep on your organization’s offerings.

- **Stream live video content** to drive engagement with your audience. LinkedIn Live generates 7x more reactions and 24x more comments on average compared to native video posted by the same Pages.

- **Spark conversation to win engagement.** Ask questions that encourage members to respond or tag their connections, and be sure to respond to all comments. Back-and-forth conversations are key to helping your post be seen by a wider audience.

- **Create a monthly content calendar.** Review your Analytics tab prior, to see what content is performing best.

- **Use the 3-2-1 model.** Every week, aim to publish three pieces of industry-related content, two pieces of “proud” content (content that make your employees and community feel good), and just one piece of product or service-related content.

- **Schedule your posts.** Using a tool like Hootsuite or Sprinklr, you can schedule all of your content ahead of time.

*Pages that post daily get 2x the member engagement*
